

Yes. **Let's confirm the sequence first, then continue exactly schedule-wise.**

Based on what we've covered, the networking interview preparation is progressing like this:

Day	Main Topic	Status
Day 1	Networking fundamentals, OSI model introduction	✅ Complete
Day 2	7 OSI layers , encapsulation/decapsulation, Layer 2/3/4 roles, TCP/IP flow	✅ Complete
Day 3	IP addressing, IPv4, subnet basics, network vs host	✅ Complete
Day 4	TCP fundamentals , 3-way handshake, SYN/SYN-ACK/ACK, segmentation, MSS, MTU, sequence/ACK numbers	✅ Complete
Day 5	TCP socket programming , <code>socket()</code> , <code>bind()</code> , <code>listen()</code> , <code>accept()</code> , <code>connect()</code> , <code>send()</code> , re TCP states	✅ Complete
Day 6	UDP , TCP vs UDP, ports, sockets, 5-tuple, DNS/HTTP/HTTPS/SSH	✅ Complete
Day 7	ARP + MAC + Ethernet switching + router forwarding + Same LAN vs Different Network	🔜 Next
Day 8	IPv4 addressing + subnetting in depth	🕒
Day 9	Routing fundamentals + routing tables	🕒
Day 10	ICMP + ping + traceroute	🕒
Day 11	DNS in depth	🕒
Day 12	DHCP + NAT	🕒
Day 13	HTTP/HTTPS + TLS basics	🕒
Day 14	Network troubleshooting commands in Linux	🕒
Day 15	TCP advanced concepts: flow/congestion control, retransmission	🕒
Day 16	Socket programming hands-on: TCP + UDP client/server	🕒

Day	Main Topic	Status
Day 17	Wi-Fi, Ethernet, switches, routers, VLAN basics	
Day 18	Network security fundamentals	
Day 19	Networking interview questions + scenario-based problems	
Day 20	Full revision + mock interview
